## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lester Anderson (Reg. No. 45,833) on June 02, 2004.

The application has been amended as follows:

Cancel claims 20-21, and 23-24 without prejudice because these claims are withdrawn from non-elected subject matter.

### ***Allowable Subject Matter***

2. Claims 1, 7-10, and 22 are allowed.

The following is an examiner's statement of reasons for allowance: the references cited disclose a system comprising a carrier having a printed circuit, a component mounted on the surface of the carrier, a printed circuit board having a hole to accommodate the component, a solder material soldering the carrier to the printed circuit board, and some other claimed elements. However, they do not teach or render obvious in combination of the system having a paste material adapted to provide an electrically coupling between the printed circuit of the carrier and the component, the component is electrically coupled to the printed circuit board via the paste material, and the paste material having a high melting point than the solder material.

Art Unit: 2827

Also, there is no suggestion to modify the references to include these limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
